SMARTWASH1000

ECONOMICAL CART WASHER KIT

Affordable Cart Washer Kit...

SMARTWASH 1000 is our economical cart washer kit. Speed up production rate without having to pay big bucks. It's innovative design allows for **adaptability** depending on your production needs.

The kit includes a **settable control system with four wash packages** calculated to your specifications. Kit design gives you the power to place the SMARTWASH 1000 in the best location for your plant.

KIT DESIGN UTILIZES YOUR EXISTING BUILDING!

SMARTWASH 1000 includes a state of the art pumping station to control washing cycles and use **minimal water usage**. Entire structure is built out of **non-corrosive material** to ensure longevity within the commercial laundry industry.

Optional SMARTWASH DRYER can be attached to speed dry time between cycles. For heavier production, upgrade to the SW 1500 or 5000 with conveyor system that feeds carts through.
